

## 4.2 ONE-ELEMENT ALUMINIUM POSTS

One-element aluminium posts are produced in different versions: from 3,5 to 8 meters. In this group there are posts with stamped or cast base or dug into the ground.

### 4.2.1 POSTS WITH DIAMETER OF $\varnothing 114$ mm AT THE BASE

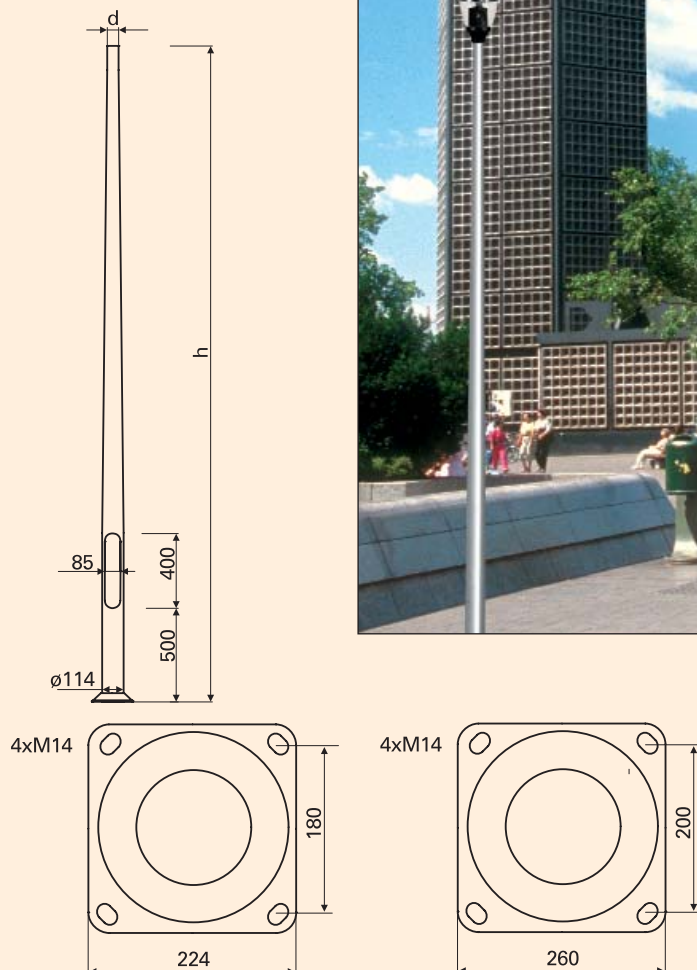

Those posts are destined for mounting one lighting fitting on the top of the post as well as one-element extension arms WA-1, WA-01, WA-2 | WA-3.

The base is the element stamped from sheet-aluminium of 8 mm thickness. The thickness of the post's side at the bottom is 3 mm and at the top is 2,6 mm.

Type	Height h [m]	Weight [kg]	Diameter d [mm]	Post's mounting
SAL-3,5-B/60	3,5	9,2	$\varnothing 60$	Concrete footing B-5 or concrete reinforcement Z-5
SAL-4-B/60	4	10,6		
SAL-4,5-B/60	4,5	12,1		
SAL-3,5-C/75	3,5	9,4	$\varnothing 75$	Concrete footing B-5 or concrete reinforcement Z-5
SAL-4-C/75	4	10,8		
SAL-4,5-C/75	4,5	12,3
